## HENRY AVOCADO CORPORATION

Henry Avocado Corporation is a cultivator and distributor of Hass Avocados in Southern California and across the United States.

Baker Electric was able to install a 1,502-panel system for Henry Avocado on the property of their headquarters in Escondido, California. This enables Henry Avocado to lower both their operating costs and their carbon footprint as a company.

## Project Specs

Location : Escondido, CA

System Size 492 kW

Number of Panels 1502

Annual Energy Cost Savings null
