

## CALIFORNIA BORDER PROTECTION MULTI-SITE

Baker Electric and SDG&E worked together to install photovoltaic systems for the Department of Homeland Security at four border patrol stations throughout Southern California. A variety of rooftop and carport systems were installed at the Campo, Pogo Row, Boulevard, and San Clemente Border Patrol Stations.

### Project Specs

Location : San Diego, CA / Orange, CA

System Size 1,164.8

Number of Panels 2,912

Annual Energy Cost Savings 0
